DETAILED ACTION

1. Claims 1-20 are allowed.
2. The following is an examiner's statement of reasons for allowance:

The cited art taken either singly or in combination with other prior arts fails to anticipate or fairly suggest the limitations which the Applicant claims in independent claim 1 in a manner which would warrant a rejection under 35 U.S.C. § 102 or 35 U.S.C. § 103, especially when these limitations are considered within the specific combination claimed.

The cited art, U.S. Pat. No. 6,424,032 to Ikemoto et al., discloses a similar integrated circuit package structure in which a integrated circuit chip is mounted on a substrate with power and ground rings disposed on the substrate and around the chip, wherein the power ring has different surface areas formed around the integrated circuit chip. Ikemoto et al., however, fail to teach the power ring, which disposes on the first surface of the substrate and around the integrated circuit chip, has a larger surface area adjacent to the heat generating first region of the chip while the power ring has a smaller surface area adjacent to the heat generating second region of the chip.

3. Any comments considered necessary by applicant must be submitted no later than the payment of the issue fee and, to avoid processing delays, should preferably accompany the issue fee. Such submissions should be clearly labeled "Comments on Statement of Reasons for Allowance."
